Excisions: Excisions Recommended And Made

Reasons for excisions:

Two excisions are required to remove brief images of urine being used in association with sexual conduct, leading the publication to tend to promote and support this behaviour. The segments must be removed to prevent the publication from being objectionable under section 3(2)(d) of the Films, Videos, and Publications Classification Act 1993. The distributor agreed to the excisions and submitted another version of the DVD with the excisions made as required. There are minor formatting changes to the excised version of the DVD that have no significance to its classification.
